Screaming Circuits Layout Service Terms & Conditions

What are the terms and conditions?

- Our quick quotes are based on your netlist and the qualifying questions we ask. Changes to the netlist after quote will require a new quote.
- Standard quotes are based on the design documents you provide - changes to these files after receipt of quote will require a new quote:
 - Netlist
 - Schematic
 - BOM
 - Any Mechanical definitions necessary
- Any additional design documents that are needed to perform the layout will be specified in your quote. These documents must be received before your order will be processed and begun.
- At the time of quote you have the option of purchasing additional design review time. This time can be used for additional interactive design or leveraged as contingency time if you are concerned that your design might require additional changes.
 - Any additional design time that you purchase is refundable if not used.
 - Additional design time is a specific amount of extra hours that we can spend on your design (above and beyond the quoted design)

Feedback Reviews & Changes

- We provide you two opportunities to review your layout. One at part placement and the other after routing is complete.
- Interactive Part Placement Review
 - We place your parts according to the information you provide.
 - You will receive a PDF check print of the placements at least 24 hours prior to placement review.
 - We will have an appropriate length interactive part placement review. You will see your design through a virtual portal (see virtual portal limitations). During the scheduled review time we will interactively make changes to your design as we discuss them, however, any major changes may require additional cost. We will itemize these additional costs and provide them to you for acceptance.
- Interactive Routing Review
 - Your PCB is routed according to the design information you provide.
 - You will receive a PDF check print of the routing layers at least 24 hours prior to routing review.
 - We will have an appropriate length interactive routing review. You will see your design through a virtual portal (see virtual portal limitations). During the scheduled review time we will interactively make changes to your design as we discuss them, however, any major changes may require additional cost. We will itemize these additional costs and provide them to you for acceptance.
