

FOR IMMEDIATE RELEASE

Screaming Circuits Now Offers Online Quick-turn PCB fab

PCBexpress® Quick-turn fab from Sunstone Circuits integrated with Screaming Circuits PCB assembly

Canby, OR – April 15, 2013 – Screaming Circuits, specialists in quick-turn prototype and short-run pc board assembly, has added new capabilities to its website. Now Sunstone Circuits' PCBexpress quick turn service can be quoted and ordered in one transaction with Screaming Circuits' assembly service. Sunstone's Full-Feature PCB service has been available for three years, allowing maximum flexibility in lead-times and capabilities. Now PCBexpress quick turn is available for the fastest turn-times.

The prototype job entails more than just "building a few protos" and dropping them in the mail. Screaming Circuits, with real-time online parts quoting, both full-feature and quick turn service from Sunstone and world-class assembly allows the engineer to stay focused on design by offering the complete prototype parts, fab and assembly solution in one place. The process, start to finish can be completed on one quote and in one transaction. See it in action at DesignWest, booth 838, April 23 – 25, 2013, San Jose, California.

"Screaming Circuits and Sunstone Circuits continue to collaborate as partners to make the engineer's job easier by integrating Sunstone's PCBexpress® quickturn PCB service into the Screaming Circuits online quote and order process," said Al Secchi, Customer Service Manager for Sunstone Circuits. "Their quality, attention to detail, and ease of ordering make ordering, prototyping, and assembling circuit boards easier and more convenient for design engineers."

Screaming Circuits offers the only online, real-time, complete prototype quote, order and build process in the Industry. After the prototype phase is complete, Screaming Circuits' electronics manufacturing service division, Milwaukee Electronics, offers full production manufacturing including design engineering, materials management, assembly and test.

About Screaming Circuits and Milwaukee Electronics

Screaming Circuits was formed in 2003 as a quick-turn prototype division of Milwaukee Electronics, a privately held ISO 9001-certified contract manufacturer, offering design and turnkey production volume assembly services to blue chip OEMs. For more information, visit Screaming Circuits on the web at www.screamingcircuits.com or the company blog at blog.screamingcircuits.com.

About Sunstone Circuits

Sunstone Circuits pioneered the online ordering of printed circuit boards (PCBs), and it is the leading PCB solutions provider with more than 35 years of experience in delivering quality engineering software along with quick and on-time PCBs for the electronic design industry. Sunstone Circuits is dedicated to improving the PCB prototyping process from quote to delivery (Q2D®) and provides “live” customer support every day of the year (24/7/365). For more information about Sunstone’s PCB solutions plus online quote and ordering process, please visit www.Sunstone.com.

Trademarks

Screaming Circuits, and the Screaming Circuits logo are registered trademarks of Screaming Circuits, a division of Milwaukee Electronics. Milwaukee Electronics is a trademarks of Milwaukee Electronics. Sunstone and PCBexpress are registered trademarks of Sunstone Circuits.
